The great thing about a taller table is that the added height lets the table double as a prep space, which is a major advantage in a small kitchen. Plus a higher table draws the eye up, creating an illusion that they are taking up less space. There are two choices when it comes to taller tables: counter-height and bar-height.

The final scale concern when choosing chairs for a mixing room table is the difference between the table height and the overall chair height. Make sure the backs of your chairs are taller than the top of the table. Taller is better, but a height difference of two inches is the absolute minimum. The chairs look squatty otherwise.
